WITHOUT STAINING HANDS  
OR FINGERS BY INK

# 1YG

Our most advanced technology has made it possible to load label a lot simpler and print more distinctly.

Light weight balance lever does not fatigue the operator even for a long period of continuous use and it has realized the amazing speed of labeling.

Moreover, dial shaft can easily be shifted on either side.

Arrangement of printing bands can be made according to customer's requirements.  
For clear printing, however, the same band number can not be used twice for one arrangement from the list.
