LA-30

LA-60

Just squeeze the handle and release it to apply labels!
Incorporating many practical functions and special features, our HALLO label applicators LA-30 and LA-60 help make labeling much faster and easier and increase your productivity at various workplaces.

By positioning the label sensor properly to the top of the label, various shapes of labels can be dispensed with great accuracy from round, oval label to odd-shaped label.

Notice:

No special slits or holes required on the backing paper.
 Use only die-cut labels.
 Backing paper within the range of 50~100 μm thick is acceptable.
 Design and specifications are subject to change without notice.
