# ELECTRONIC MARKER

Makes labeling quicker and more convenient

Will dispense die cut roll labels-No black mark or notch required on labels

Gives speedy peel-off and feed action

Electronics for quick, accurate label feeding

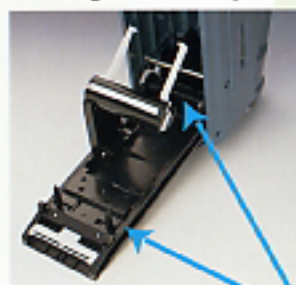

Label feed rate:  
130 mm per second

## Label position sensor

This sensor arm monitors the leading edge of the label, and ensures that the subsequent label is fed forward properly. The dispensing length of the label is adjustable using the control knob so that even labels without notch or black mark will be fed just right.

Packed with convenient features

## Easy set-up

Label-holder width guide

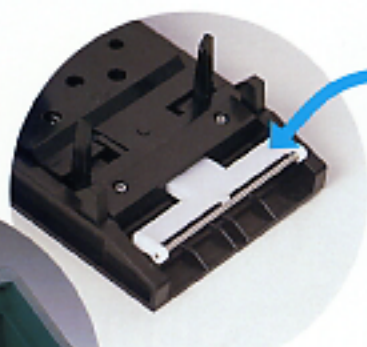

Insert between rollers

Set label to match label-holder width guide and insert the leading edge of the backing paper between the feed roller and the press roller and turn on the power switch. This automatically sets the label to the correct position.

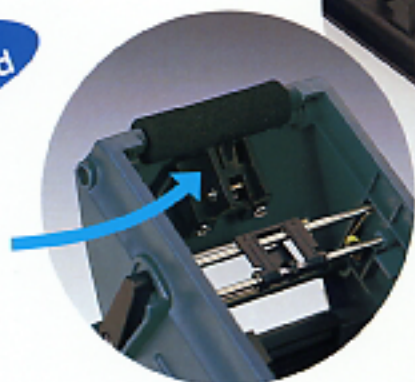

## Specifications

Label feed rate	130mm per second (or faster)
Dimensions	216 x 96 x 280mm
Weight	670g (without labels or battery pack)
Battery pack dimensions	67 x 37 x 136mm
Battery pack weight	240g
Backing paper width	23~52mm
Backing Paper thickness	0.1mm or less
Label roll outside diameter	100mm or less
Label length	17mm or more

## Label feed sensor

This sensor detects slack in the backing paper and instantly reels it in to ensure proper label peel-off.

## Pilot lamp

Shows battery power remaining.  
Green: OK to use  
Orange: time to re-charge

## Control knob

Controls the dispensing length of the label. Set it to fit with the length of the label you are using and the object you are labeling. It offers a 60 mm range of adjustment.

## Rechargeable battery pack

A single charge is good for about fifteen label rolls of 18 meters each. The AC Adapter CV-60 and the Grip for the Adapter AG-21 are needed for use with AC power.

## Label-remaining window

## Easy to use anywhere

To use as a desk-top dispenser open the rear stay and place the unit upright on a flat surface.

If the unit can be fixed as shown below, you can apply labels to hand-held objects.
